

» BASF Handbook: Basics of Coating Technology

Arthur Goldschmidt/Hans Joachim Streitberger
September 2007, 792 pages, hardcover
ISBN: 9783866309036
order no. 166 | 116.00 € | 158.00 \$

Essential – Concisely – Expertise on the point!

From product composition, raw materials, principles of product formulation and the relevant production processes over theoretical aspects of coating composition to applications and the substrate's impact on the coating process – This book covers all these topics concisely and every time right on target! A must-have for every coating professional!
